

# Hungry for Knowledge ...But Tired of Fast-Food Training?

ENS has been serving Northeast Indiana as the region's premier Microsoft® Gold Certified Partner for Learning Solutions (CPLS) for the past seven years. Our extensive list of training courses includes options that you might expect to find only in larger metropolitan areas, but without the additional time and costs associated with travel to those locations.

The ENS Technical Learning Center (TLC) employs only certified instructors who possess the right blend of communication skills, technical proficiency, and business experience. Each of our instructors has an average of more than twelve years of consulting and technical training experience. That's why our instructor ratings from participant evaluations reported to our vendor partners consistently rank among the highest in the country.

Our schedule of classes covers the most current technologies used in today's business environment, including:

- *Microsoft*
- *Cisco*
- *VMware*
- *EC Council Security*
- *Citrix*
- *CompTIA: A+*
- *IT Infrastructure Library (ITIL)*
- *Linux*

We're not just technical training any more. Teamed with the TLC, the ENS Application Solutions Center (ASC) makes ENS your

single source for all of your technology training needs. ASC provides training and support in all of today's popular desktop applications such as Microsoft Office or the Adobe® Creative Suite.

We know that when it comes to training, one size really doesn't fit all. Instead, we work with you to evaluate your training needs and tailor a customized training program to fit. This enables us to deliver the most cost-effective solutions for your business. A typical customized program may include:

- *Open enrollment classes*
- *Customized private classes at our facility or yours*
- *One-on-one training*
- *ASC the Expert sessions with an on-site "roaming" instructor*
- *Project assistance or one-time support*

Get your team ready for today's technologies and give productivity a boost, with training solutions available right in your own backyard. Call: (260) 432-1364 or visit us online at [www.ensi.com/ls](http://www.ensi.com/ls) to find out how we can design a custom training program that's a perfect fit for your entire team.

The ENS logo consists of the letters 'ENS' in a white, bold, sans-serif font, centered within a black square.
