

When your success depends on partnering with the best, why would you partner with anyone LESS capable than ENS?

WHY CHOOSE ENS

- 1 ENS Group serves customers in Indiana, Ohio, and Michigan. Our corporate office is in Fort Wayne, Indiana. Our multiple practice areas all work together to help businesses understand and use technology. We are experts in Strategic IT Recovery Planning, Technology Design, Systems Integration, Managed Services, Learning Solutions, and Website Development.
- 2 ENS Group is a full service technology consulting and implementation provider. We are hardware and software independent, but maintain strong ties with the leading vendors so that we are able to support our customers to the fullest extent. This means that we won't try to sell you hardware or software that you don't need, but will work to find the best solution for your business.
- 3 ENS Group holds the distinction of being the first Microsoft Gold Certified Partner in Northeast Indiana. Our list of competencies associated with this designation is greater than any other Gold Partner in this region. Our depth and experience with the Microsoft partner program means that you will receive the best technology support available.
- 4 ENS Group is an expert in virtualization. We are certified to support and implement the major virtualization technologies: Microsoft Hyper-V, and VMWare Infrastructure. ENS is the only VMWare Enterprise Partner in the Fort Wayne area.
- 5 ENS Group offers a variety of managed service packages to help protect your investment in technology. These packages include preventative maintenance, patch management, security audits, 24x7 system monitoring, and disaster recovery audits. ENS Group's Managed Services practice can develop a program specifically tailored to meet the information technology needs of your organization. We are committed to creating a more productive technology environment in your company so you can concentrate on your core business.
- 6 ENS Group is the premier Microsoft Certified Partner for Learning Solutions in Northeast Indiana. This means that ENS Group is an authorized source for technical classes written and developed by Microsoft. ENS Group can provide customized training for your organization which is tailored to your particular environment. Our training consultants and engineers have traveled the nation educating other providers at conferences and training centers. Several of our consultants have also participated in teams that have developed certification exams for leading software manufactures.
- 7 ENS Group's Application Solution Center (ASC) delivers desktop training and support in all of the most popular business applications used today. Our instructors are certified as communicators and as experts in the applications they teach. Our consultant will meet with you to design the most cost-effective training plan for your business, ranging from hands-on training at our facility in out-of-the-box applications to flexible custom sessions at your facility covering specific features or processes.
- 8 ENS Group's Virtual Chief Information Officer practice can help you develop a long-term technology plan for your business. Our VCIO Consultants can also assist with business technology audits, software selections, deployments, project management, RFP creation, technology hiring, disaster recovery plans, and business continuity consulting.
- 9 ENS Group deploys and supports both of the major unified messaging platforms to small and medium business: Cisco Call Manager Express with Unity Express and Microsoft Exchange Server with Unified Communications. We hold Premier status in the Cisco Call Manager Express specialization.
- 10 ENS Group's staff maintains the top industry and manufacturer's certifications available in the technologies for which they provide services.
