Expression Web 2: Basic

MS-EW-BAS-AX Rev 09.09

2 days

Description

This ILT Series course teaches the basic features and functions of Microsoft Expression Web. Students will learn how to plan and create Web sites, work with templates, format text, and use CSS. They will also learn how to work with images, create links, use image maps, and create tables. Finally, students will learn how to use proofing tools and publish a Web site.

Prerequisites

- *Windows XP: Basic or Windows Vista: Basic*
- *Previous experience with Internet Explorer or another web browser is recommended*
- *Web Design Workshop Using HTML, XHTML & CSS (Levels 1-3) is recommended*
